---

Bill, attached is the agenda for the meeting next Tuesday April 5, 2011. I had to schedule another meeting with another group in the agency at 2PM on Tuesday. Wonder if you and I could start earlier around 1:15 to discuss the efficacy items. The other individual from BASF who will be on the phone can stay throughout the entire meeting. Sorry about having to do this but looking forward to seeing you next Tuesday and thanks again for everything in advance.

I'll try to get a room that has a phone in it. If there is only one person to connect, we can call that person.

The Tuesday in question is April 5 rather than tomorrow.

Jonathan has indicated that he might be able to switch his 1 PM meeting to 2 PM and meet with us at 1 PM.

Bill,

I plan to be in the office Tuesday because of the rodenticide team meeting. Normally, I am off site.

Thank You,

Re: Visit to EPA

Tuesday afternoon would work for me. Dan Peacock, a likely invitee, usually works off-site on Tuesdays, which is why I suggested Wednesday as the best day to shoot for. Another likely invitee, Jennifer Gaines, usually is in until around 3 PM on Tuesday afternoons.

I typically work off-site on Mondays and alternate Fridays. I am not scheduled to work on April 8. If you cannot make it to Potomac Yards on Tuesday, Wednesday, or Thursday of that week (Wednesday likely would be best for availability of other staff), let me know and I will arrange to come in on April 4.

Bill, per our conversation of a few weeks ago about a new vitamin active rodenticide I would like to come in for a pre-registration meeting to be sure we know exactly what we have to do to obtain the registration. I will be in DC the week of April 4. I actually fly in on April 3 and can meet either Monday morning April 4 or Friday morning April 8. I have meetings the rest of the week. My flight out on Friday is around noon out of Reagan. Had to leave early to find a seat and reasonable fare at this late date. Let me know if we can get together on one of those two times. Thanks
